Winner of the Corporate Social Responsibility award, Brief synopsis and refresher

- In the year of its 150th anniversary (2021) the Bardusch group decided to put all jubilee activities and expenses under the umbrella of corporate social responsibility projects.

- The range of proposed projects was enormous. The spectrum ranged from generous donations for existing social and ecological institutions or voluntary assignments of Bardusch employees.

- As some examples, employees of one subsidiary in Poland donated 150 liters of blood, others set up bee colonies, planted 150 trees in some sites in Switzerland and Hungary. Physical activity was also in demand in the Polish project "150 kilometers charity run".
